- Kreinik Blending Filament in 002HL
- 32-count silk gauze from Kreinik (at least 4" x 4" piece)
- #28 Tapestry needle or #10 crewel needle

Design size: 77w x 94h

Instructions:

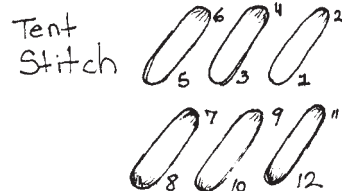

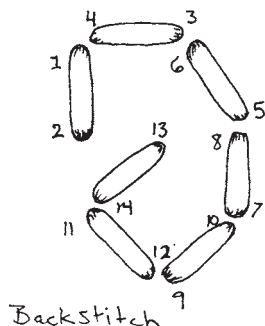

This design is stitched over one on the 32-ct gauze. Each square on the chart equals one fabric thread. Tent stitch this design according to the color key using one strand of Silk Mori.

Use Blending Filament 002HL Gold Hi Lustre DOUBLED in the needle for tent stitch and backstitch according to the color key.

Make "double cross stitches" in 002HL at ends of antennae and all ribbon ends. Work the first diagonal of the cross stitch twice in the same mesh holes, then work the second diagonals twice.

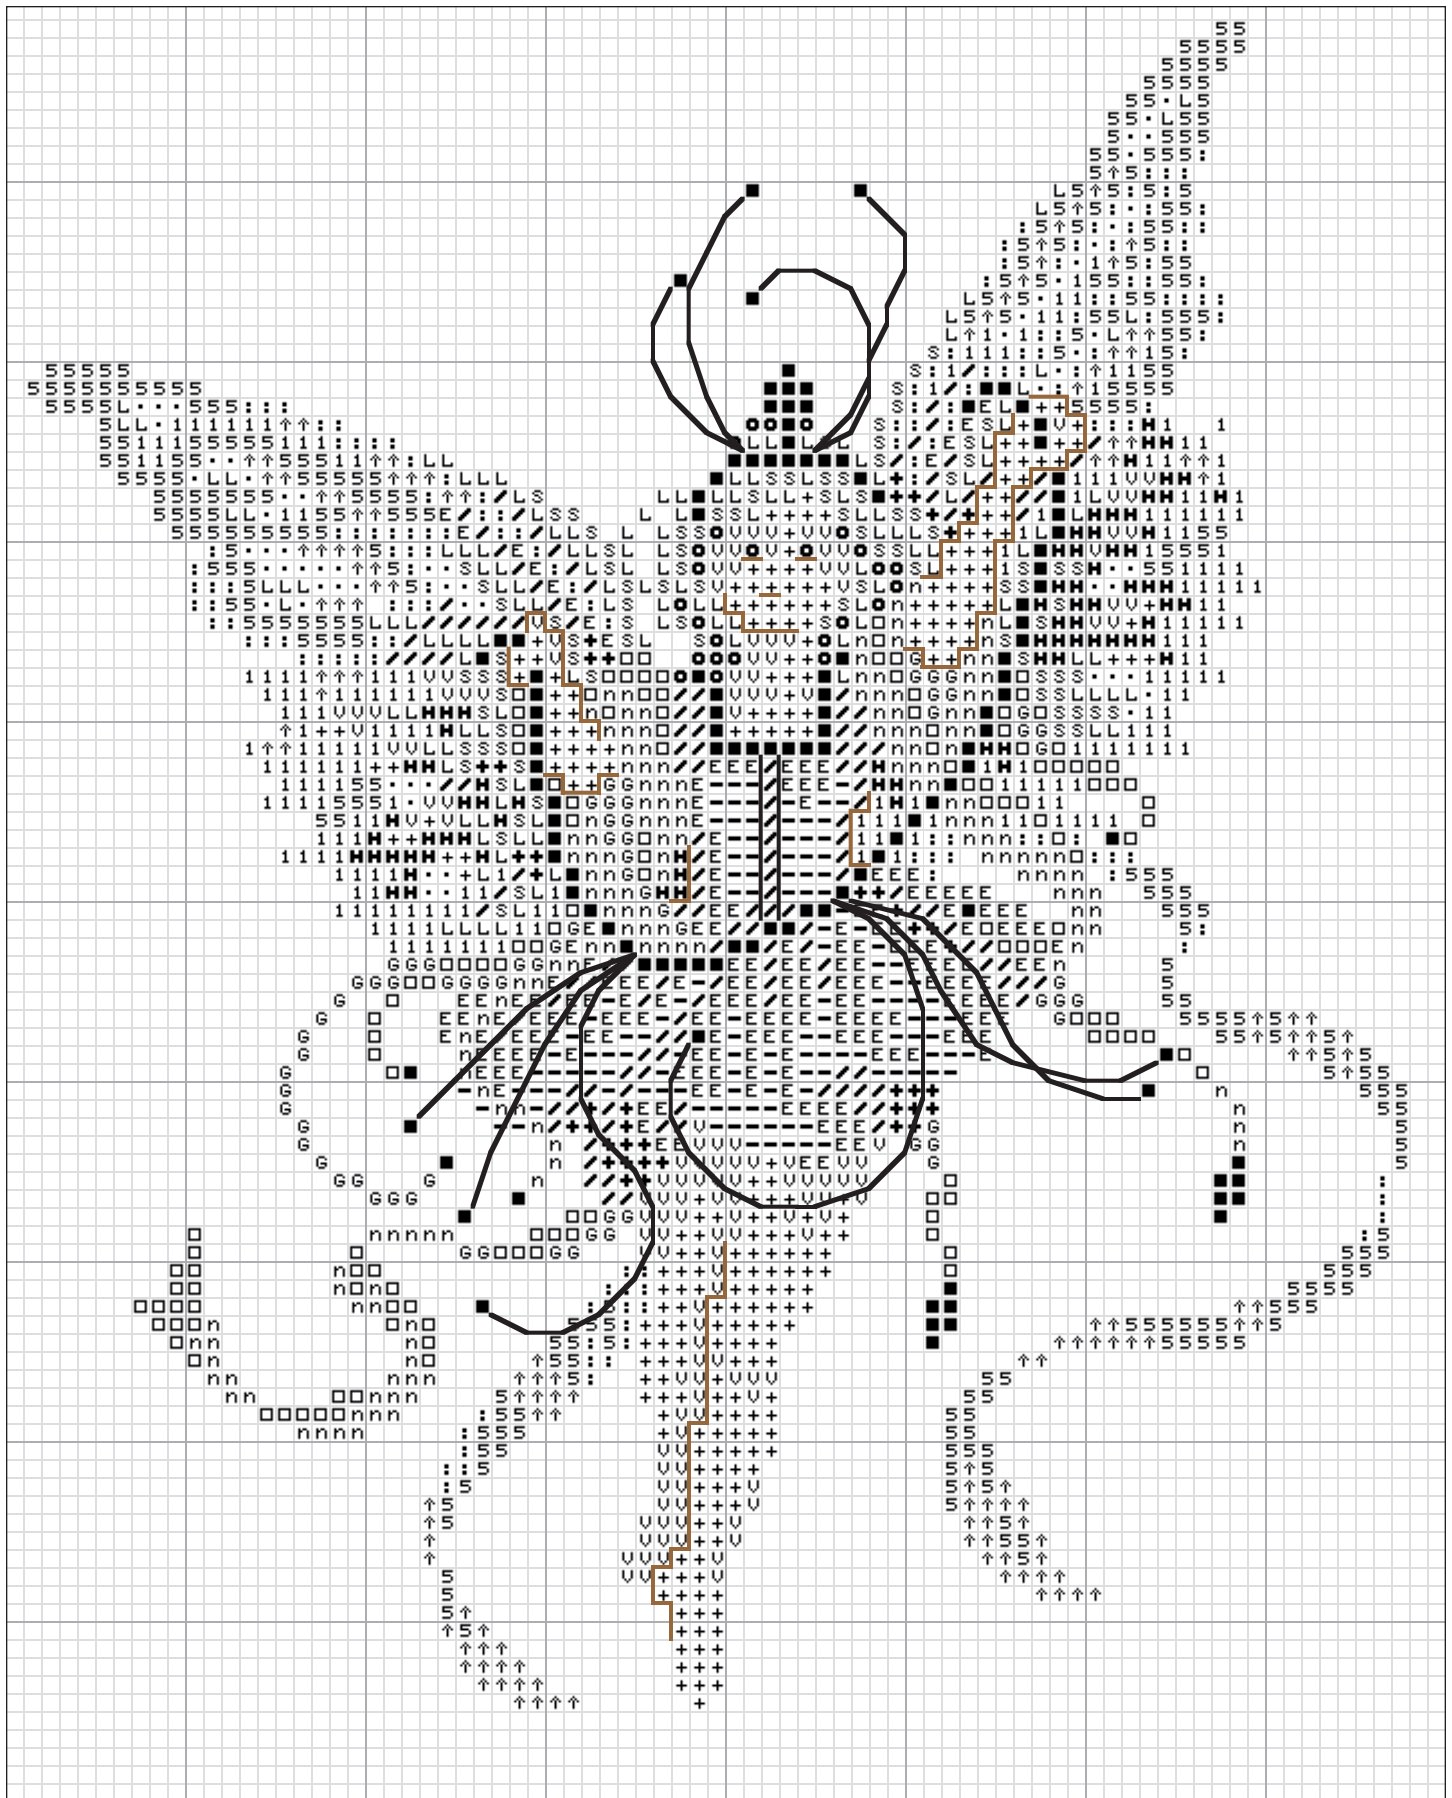

Tent Stitch the ribbons. When working tent stitch out to the ends of ribbons, begin thread by running under stitches already stitched. Work ribbon area, then end thread, making sure to run thread back underneath several stitches towards main area so ending thread does not show from front. To work gold Double Cross Stitches, begin 002HL by running underneath a few silk stitches, away from ribbon end. Work Double Cross Stitch, then run 002HL back under silk stitches, again making sure 002HL ends do not show from front.

Backstitch face, arms, legs and waist with one strand Mori 7135.
